In all ministry we endeavor to see people move one step closer to Christ, whether that be to salvation or in discipleship.

The Field

Australia is a modern country with all the technological conveniences. It has over 20 million people. Most of these people live in the cities or along the coast.

Sydney is the largest city with almost one quarter of the people living in the greater Sydney area. It is famous for its Opera House, beautiful harbor, and cultural diversity.

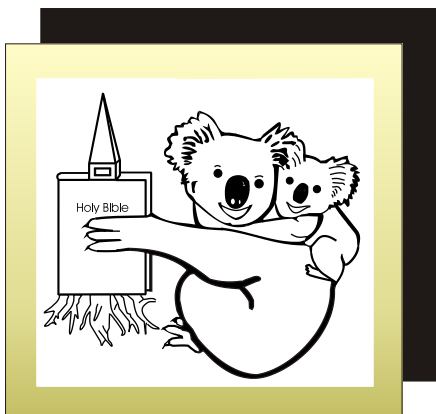

At present, we have a list of 15 cities in Western Sydney alone that have been identified as targets for new church plants. In recent years Sydney has grown at an average of 1000 people per week, with 800 being overseas migrants. The opportunities abound, but the laborers are few.

The Hearts' Cry

The vision statement of ABWE Australia says it best.

We are ABWE - Australia, and, as an expression of our relationship with our Lord Jesus Christ, we are committed to developing self-propagating Baptist churches in order to foster an Australian Church multiplication and missions movement through intentional evangelism, teaching the truth, equipping for ministry and training leaders, to advance God's kingdom.

It is our deepest desire to partner with Australians to help establish them in the ministry God would have for them.
